**Course 1**  
**Chapter Eight Vocabulary**

point	obtuse triangle
line	right triangle
segment	congruent segments
ray	equilateral triangle
collinear	isosceles triangle
plane	scalene triangle
intersecting lines	polygon
parallel lines	quadrilateral
skew lines	trapezoid
angle	parallelogram
vertex	rectangle
degree	rhombus
acute angle	square
right angle	congruent figures
obtuse angle	similar figures
straight angle	line symmetry
perpendicular lines	line of symmetry
complementary angles	image
supplementary angles	translation
vertical angles	reflection
congruent angles	line of reflection
transversal	rotation
interior angles	center of rotation
exterior angles	tessellation
acute triangle
